

QUESTION

How do I upload the LTEF to my User Terminal?

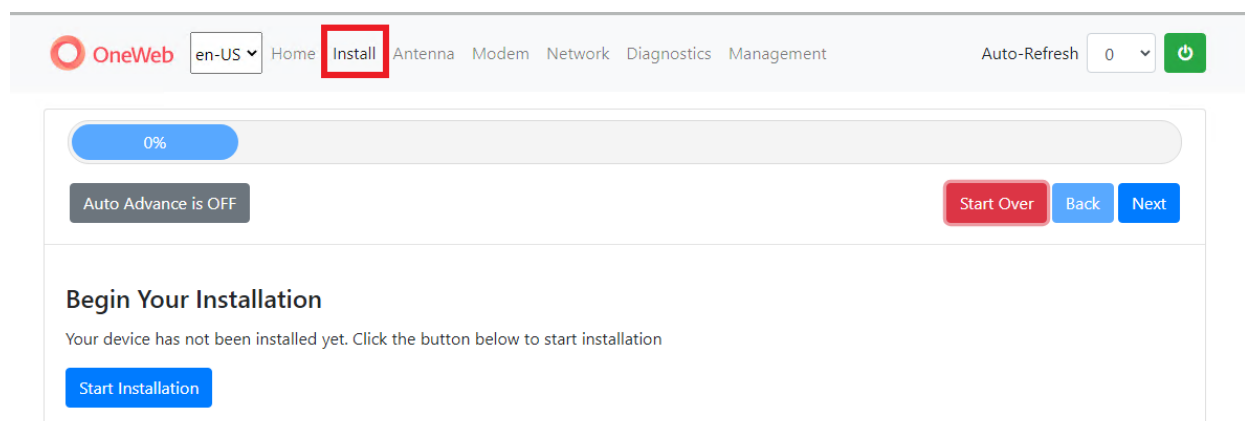

ANSWER

1. On your web browser, enter : <https://ephemeris.oneweb.net/ltef/>

2. Left click “ltef.csv” to download to your downloaded folder or right click “ltef.csv” and select “Save link as...” and save to a destination of your choosing.

3. From the LUI of your User Terminal navigate to the install tab, highlighted in red.

4. Click the Next button and you'll see the page below.

The screenshot shows the OneWeb installation progress bar at 6% completion. The progress bar is a blue pill-shaped indicator on a grey track. Below the progress bar, there is a grey button labeled "Auto Advance is OFF". To the right of this button are three buttons: "Start Over" (red), "Back" (blue), and "Next" (blue). Below these buttons is a section titled "Upload Software Bundle". Inside this section is a table with the following content:

Current Software	
AIM 1.5.37	SSM SSM_3.3.0.16

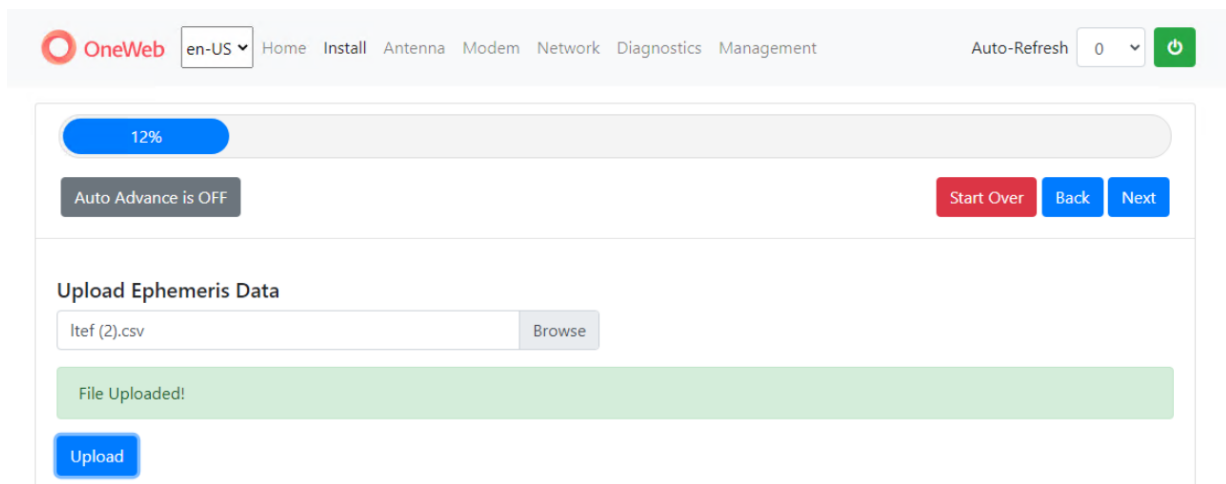

Below the table is a text input field with a "Browse" button to its right. At the bottom left of the section is a blue "Upload" button.

5. Click the next button again to see the page below.

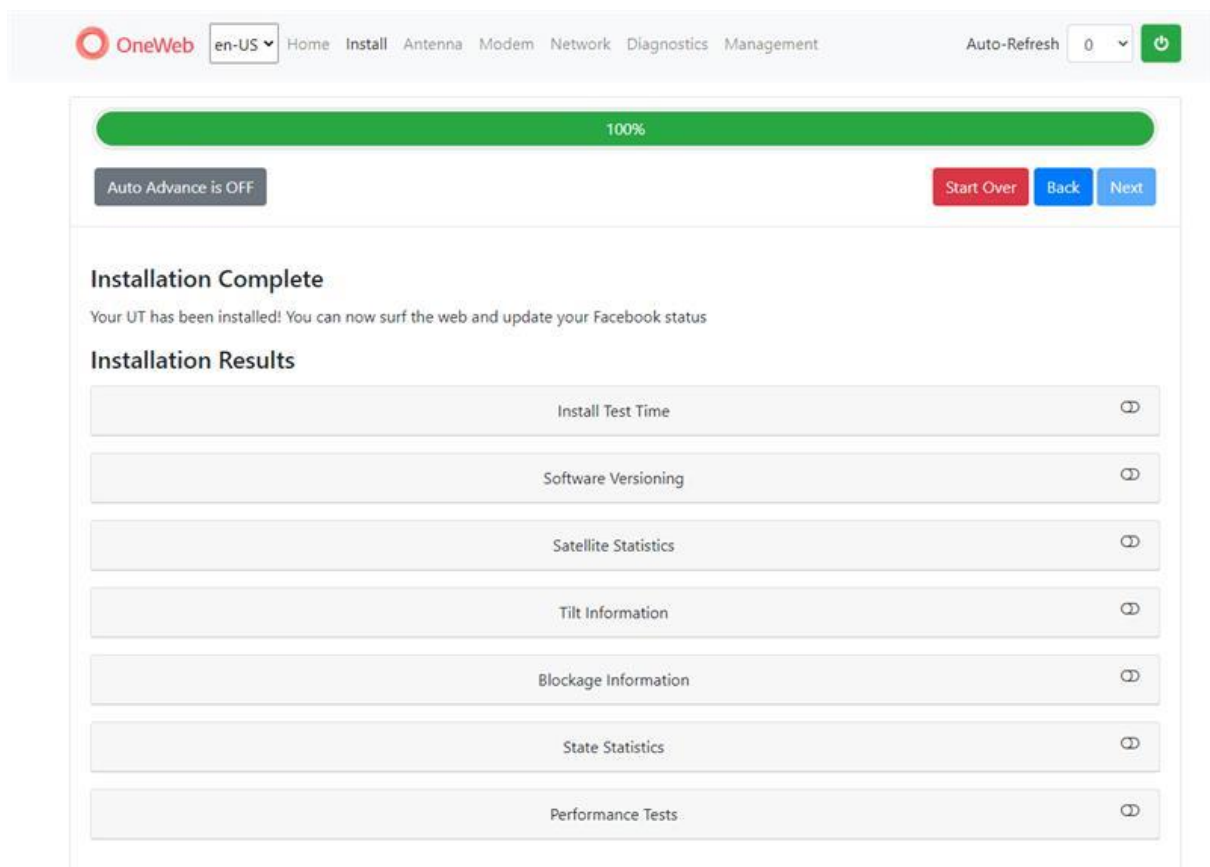

The screenshot shows the OneWeb installation progress bar at 12% completion. The progress bar is a blue pill-shaped indicator on a grey track. Below the progress bar, there is a grey button labeled "Auto Advance is OFF". To the right of this button are three buttons: "Start Over" (red), "Back" (blue), and "Next" (blue). Below these buttons is a section titled "Upload Ephemeris Data". Inside this section is a text input field with a "Browse" button to its right. At the bottom left of the section is a blue "Upload" button.

6. From the "Upload Ephemeris Data" page ,select browse and locate where you have saved the LTEF. Select the file and click OK.

7. Left click the upload button and await the file uploaded notification.

8. Left click the "Next " button, allow the page to load and complete the task. Repeat until you see the installation complete page.

The LTEF has upload has now been completed.
