
FIRMWARE UPGRADE

source: www.thuraya.com

date: 28.02.2022

THURAYA XT-PRO

Requirements for upgrade:

- Thuraya XT-PRO
- XT-PRO upgrader program
- USB data cable
- PC with Windows 10, Windows 8/8.1, Windows 7 or Windows Vista

Before upgrading an XT-PRO, please check which firmware is installed (go to Menu > Security > S/W version). Perform the upgrade only if Thuraya releases a firmware version newer than your existing one.

Please follow the below steps:

Step 1

Download the **Thuraya XT-PRO upgrader** program.

Run the setup file - the Upgrader program including the USB driver will be installed.

Step 2

Download the latest Thuraya XT-PRO firmware release to your hard disk.

- **Multi-language firmware v1.6**
(for IMEI 35610706 - 200,001 - 700,000)

Step 3

Connect your XT-PRO with the PC/laptop via USB data cable.

You can now start the XT-PRO Upgrader program and locate the firmware on your hard disk. The Upgrader program will help you through the upgrade process.
